

NEET UG-2026 Question Paper Review-Sun, 3rd May 2026

Physics was easy/moderate paper

1. There are nearly 12 questions which can be answered without any calculations.
2. This is third consecutive year where questions from thermal properties of matter are not given
3. Equal weightage is not considered among 1st year and 2nd year syllabus
4. There were 27 questions from 2nd year including experimental physics and 18 questions from 1st year

Prof. Sandeepkumar Satrasala
Physics HOD

Chemistry NEET-2026 is easy to moderate.

1. It is well balanced paper and lengthy.
2. Equal weightage was given for Physical, Organic and in-organic chemistry
3. There were good number of numerical in physical chemistry. Few numerical were bit time consuming
4. There were 22 questions from 1st year, 23 questions from 2nd year including 3 from practical chemistry
5. All questions are from NCERT. Majority of questions were concept and application based.
6. A well-prepared student can score more than 160-170.

Dr. Soumya Kumari S
Chemistry HOD

Biology question paper is moderate but lengthy.

1. No out of syllabus questions
2. 44 MCQs are from 1st yr syllabus
3. 46 MCQs are from 2nd yr syllabus
4. No diagram-based questions
5. 19 MCQs are match the following questions
6. 25 MCQs are statement types (5 statements each)
7. Questions weightage for few lengthy chapters were inappropriate
8. No Assertion reasoning questions.

Dr. Babu T P
Program Head, Biology HOD

Overall review :

A well prepared student can comfortably score 500-550, Toppers can score above 670 to 700

Student's Testimonial:

The paper was relatively easy compared to the 2025 shocker. Overall not very lengthy, as sufficient time was present to solve all 180 questions, but subject-wise break up states that biology was as usual theory intensive with good amount of statement based questions, but very few ambiguous options. Physics if solved accurately shouldn't take more than 1 hr 15 mins. Chemistry was moderate with a little higher focus on practical chemistry.

Ritul S Reddy
24001244

Physics and chemistry were overall easy, few tricky questions
Biology was direct and easy
Overall paper was good, time management was possible too

Nayana Gopi
23004794

Paper was relatively easy.
Biology was easy, doable, mostly memory, not much application.
Chemistry-some calculations so moderate difficulty, organic was easy
Physics-easy/moderate. few lengthy calculation questions, otherwise most questions were common.
